ABOUT US

Intercept Global specializes in comprehensive supply chain management solutions for defense sectors around the globe.

Our extensive network of global suppliers and vendors, in - depth knowledge of procurement, and structured approach enable us to deliver goods and equipment on schedule at the most competitive rates without compromising on quality.

We serve demographics across the globe, including the USA, Europe, Africa, the Middle East, and Asia, with offices in the USA, United Arab Emirates, Poland, Iraq, Kuwait, Singapore, and Qatar.

As a major player in the consumer goods, automotive, construction, and perishable industries, we have extensive knowledge of these sectors.

THE APPROACH

Our expert teams work closely with clients to analyze data and understand their business needs. We cultivate faster, fresher, and more substantial outcomes by tapping into our sector expertise. We offer:

1. Customized evaluations using accelerated or standard methods
2. Immersive and constructive challenges that help rethink the current situation
3. Ability to quickly implement ideas and capitalize on them

WHAT WE DO

■ PROCUREMENT

Using our extensive procurement experience, we build and execute complex supply chains that deliver in the most challenging locations.

■ SUBCONTRACTS

Intercept Global offers comprehensive subcontracting services in areas such as kitchen equipment and generator leasing, construction work, fuel testing, lift station pump repair, and underground leak detection and rectification.

■ LOGISTICS

We offer end - to - end logistical support, including warehousing, fulfillment, distribution, and freight forwarding.

MISSION & VISION

MISSION

Our goal is to offer a good, dependable experience to clients while also providing them with great value in the market. To accomplish this, we focus on establishing solid customer relationships, continuously developing structured processes for projects of all sizes, sourcing for the best price, and delivering on time.

VISION

With a vision to be the best and most sought-after procurement and logistics partner in the industry, we assist clients in creating and maximizing lasting competitive advantages. We work to raise industry standards, especially those relating to partner and client interaction, and foster better operations that integrate best practices into a single framework.

01 PROCUREMENT

Intercept Global offers its vast expertise and services as a premier supplier of a broad range of materials to the heavyweights of the defense sector.

Using our extensive network of international vendors and our systematic methodology, we are able to supply products and equipment on schedule at the most affordable prices without sacrificing quality.

Our skilled team has extensive experience, having met clients' complex quality expectations and demands for years. Our deep understanding of sectors such as consumer goods, automotive, construction, and perishables gives us a distinct advantage over our competitors.

With a supplier network based on years of research, knowledge, and customer feedback, we guarantee you'll get the best procurement and supply solutions. Our network of suppliers can also find the most suitable wastewater solutions for its clients.

02

SUBCONTRACTS

Intercept Global offers comprehensive subcontracting services in areas such as kitchen equipment and generator leasing, construction work, fuel testing, and lift station pump repair. Intercept Global is strongly backed by global vendors offering very reliable services as well as a team of staff well-versed in operations and maintenance.

Our fuel testing services (Mogas & Diesel) are designed to evaluate the client's requirements and offer rapid and effective analytical solutions while ensuring adequate compatibility with fuel injection systems and reducing operational expenses.

Intercept Global has been sourcing and providing generators of various brands to its international clients. We are also one of the largest providers of combi ovens to the defense forces.

With substantial expertise in the inspection, repair, and maintenance of lift station pumps inside the military facility, Intercept Global can find the most appropriate wastewater solutions for its customers.

- Leasing Generators With Maintenance Package
- Repair of Buildings Including HVAC, Mechanical, Electrical, and Plumbing Work
- Fuel Testing
- Lift Station Pump Installation and Tank Repairs
- Underground Leak Detection and Rectification
- Leasing Vehicles and Heavy Equipment
- Supply and Leasing of Housing and Office Container Solutions
- Security Services

03

LOGISTICS

The Intercept Global Logistical division provides a full range of logistics and freight-forwarding services to its clients all over the world with an assurance of cost savings, system efficiency, and a customer-driven mindset. We offer you the power of an all-in-one source for comprehensive logistics services through our extensive network of offices in strategic locations and a global chain of reliable partners.

We manage and orchestrate all the items in transit to produce an effective, integrated, and secure supply chain, irrespective of the distance and the location the goods are being transported from.
